Template immuno-inclusivity info for live events

This wording provides examples of immuno-inclusivity language that could be used for event promotion. It doesn't include information unrelated to immuno-inclusivity, but we encourage providing as much accessibility information as possible.

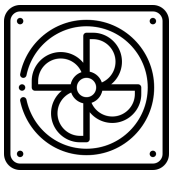

Suggested measures are examples; template language is not comprehensive, and does not replace hazard assessments or professional advice about your unique situation. Learn more about possible tools and practices at ImmunoInclusivityInOpera.ca

Short version

In-person and via livestream. N95-style masks required and available. Please refrain from wearing scented products, and from attending with symptoms of contagious illness. Find our clean air measures at **[YourOrg.ca/venue]**. For access queries or ticket exchanges due to illness, contact **[email address]**.

Longer version

Immunological access and community care:

- This is a masked event, except for access reasons - please wear a respirator mask if you're able to do so.
    - N95 and KN95 masks available for free at the door, including clear masks for lip reading and those who use sign languages.
    - Outdoor area available for eating, drinking, and mask breaks.
    - Note: some performers are not masked, but are tested for COVID-19 and influenza A+B.
- This is a scent-free space; for the health and safety of others, please refrain from wearing fragrances or scented body products.
- The venue is a cleaner-air space with 6 air changes per hour and MERV-13 filters. There are four air purifiers in the hall, and open windows in the lobby. CO_2 monitor readings are displayed at the front desk.
- Please don't attend in-person if you have contagious illness symptoms or a positive test; contact the box office to transfer to digital attendance, or exchange your ticket for another event.
- Livestream available; captioned recording to follow for asynchronous access.
- For access questions or requests, or if you wish to share a possible illness exposure post-event, please contact **[email address]**. Thank you for helping us create a safer, healthier, more accessible space for everyone!
